

Environment, Health & Safety Policy

eTree Projects Consultants Pvt. Ltd. is committed to proactively manage and achieve excellence in Environment, Occupational Health and Safety (EHS) Practices.

We shall achieve this by:

- Complying with country/client-specific regulatory standard (wherever we operate) on Environment, Occupational health and Safety for Construction, MEP & Solar installation work.
- Optimizing resource utilization for protection of environment including pollution prevention, energy conservation and reduction of wastes & emission.
- By setting and reviewing EHS objectives and provide appropriate resources to minimize, reuse and safe disposal of various wastes generated during our operation.
- Penetrate workplace safety as an individual responsibility for all employees.
- Ensure providing health, safety & healthy work environment for prevention of injury and ill health with necessary infrastructure and systems.
- Reviewing EHS performance for continual improvement.
- Promoting EHS awareness among all employees.
- Imparting required training for operating personnel.
- Providing required & sufficient information, instruction, training and supervision to all employees to ensure their health and safety.
- Maintaining personal hygiene and following safe system of work.
- Ensuring availability at all times of appropriate resources to fully implement the health, safety and environment policy of the company.
- Communicating this policy among all employees by suitable means and periodically review its relevance in a continuously changing business environment.

Contd---

The company shall handle, store, distribute and use its products in a manner that minimizes the risk to human beings and environment to go beyond compliance in all aspects of EHS.

We are committed to continuous improvements in our EHS Standards, Culture and Performance. We will maintain appropriate controls, including periodic reviews to ensure that this policy is being followed.

BE HEALTHY BE SAFE BE HUMAN BE NATURES FRIEND
